Expertly-Manufactured Fire Extinguisher Cabinets

Thomas Products fiberglass Fire Extinguisher cabinets are designed to protect all types of fire extinguishers including but not limited to those manufactured by Ansul, ABC, Figgie, Badger, and Amerex. Thomas Products fiberglass cabinets are manufactured with high quality fiberglass materials and are designed to protect fire extinguishers from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects, and temperature extremes.

Thomas Products fiberglass cabinets are manufactured under U.S. Patent No. 4,998,587 and are available in a variety of UV inhibiting colors as well as interiors designed to meet your specifications. The rugged and durable construction of Thomas Products fiberglass cabinets combine to produce a dependable and virtually air tight enclosure that will last much longer than steel, wood, aluminum, or plastic cabinets. Thomas Products fiberglass cabinets can be used for protecting all types of fire extinguishers including CO2 fire extinguishers. Thomas Products fiberglass cabinets can be wall mounted, attached to handrails, bulkheads, or designed to be free standing.
