All new from Atexxo Manufacturing, the Apple iPhone 13 now suitable for use in zone 1 hazardous locations. The explosion proof iPhones are originally manufactured by Apple than converted and certified according to ATEX and IECEx by Atexxo Manufacturing. This makes the smartphones suited for safe use in gas /vapor zone 1 hazardous locations. ATEX Zone 1 is the European equivalent for US, NEC Class 1 Division 1 equipment. (C1D1)

Compliance with ATEX / EX regulations is achieved by modification of the casing together with the safe electrical circuit, which makes the smartphones suitable for safe use in zone 1 hazardous locations. All features of the original product are preserved. The EX iPhone can be wired or wireless charged in a safe area.

The ATEX iPhone 13 zone 1 comes with an aluminum case finish and is available for 128gb, 256gb and 512gb models. Beside safe use as smart phone, all versions are excellent for use as safe video or photo camera with WIFI / 5G connection, NFC and/or Bluetooth.
