Construction

Portable luminaire with fluorescent lamps or LED-modules supplied by electronic ballast or control gear. Electronic ballasts, lamp caps and LED-modules are moulded with silicone rubber. The whole assembly, lamps, ballast, LED-modules and control gears together with connecting devices for supply cable has been built into the enclosure made of polycarbonate tube with shock absorbing and dissipative plastic endplates. The luminaire is fitted with permanently connected cable H07RN-F or cable suitable for heavy industrial use. As an option the luminaire can have a through wiring or Ex e d-certified socket and plug. With the socket the allowed ambient temperature range is  $-20\text{ °C} \leq T_{\text{amb}} \leq +40\text{ °C}$  or that marked on the socket but not wider than  $-20\text{ °C} \leq T_{\text{amb}} \leq +40\text{ °C}$ .

Degree of protection

- without Ex-socket:	IP 66
